Cape: Piercing > Boss Damage > Critical Damage/Critical Rate. Thanks! Guide in 'General Guides' published by Rentorock. Oct 30, 2020. Honestly this is a viable build, it may do less DPS than other builds but if you're lazy and want to grind something you can easily do that with this build (the variant one), especially because it has a % health self heal which is extremely strong. Teaching them how to acquire, enhance, and proceed through the equipment flow. This ability can cancel other abilities. So if you're in reboot and unsure of how to progress after leveling to ~150, check out this guide! I have another guide in the works pertaining to upgrading your gear possibly coming in April, and will update this guide based on changes/suggestions. This is the highest DPS Berserker build for a reason, so play it cautiously. Varietlyf you can keep yourself alive with this Berserker build with less than 30% of life long enough to use an abundant amount of attacks, using this Berserker Build along with the Ground Breaker could be a huge DPS increase. Berserker Death Spin Build The Berserker Death Spin build is the absolute best build for beginners because it has huge AoE potential which will let you clear monsters faster and complete quests really quickly. So please let me know if there's anything you think would make this better for people using it! © 2022 NEXON Korea Corporation and NEXON America Inc.
